

	<p>any standard is very prone to use of recycled PVC including medical waste and this is a matter of concern with BIS.</p> <ol style="list-style-type: none"> <li>2. PVC is not skin friendly in general.</li> <li>3. PVC is not eco friendly too.</li> <li>4. All advanced countries do not use PVC coated fabric for any type of garment manufacture.</li> <li>5. Unless specified PVC compound contains large amount of heavy metal like pb, cadmium etc and BIS fixed minimum presence of such in PVC products under BIS scheme.</li> <li>6. PVC compound oozes out plasticizer which are carcinogenic in nature and many of them are banned. Unless specified this may harm the user.</li> <li>7. Plastcizers like DBP etc are not worthy for recommendation and already list of banned chemicalisis with BIS and BIS prescribes such limitation of use of such harmful chemicals. All above are needed under consideration for the safety and well being of the children of Tamilnadu. We will be obliged if our submissions are considered and looked into.</li> <li>8. The supply within 60 days is impossible and no lead time is also provided for procurement etc. Minimum time required is 180 days as specified material for production is not a freely available item, in the market.</li> <li>9. Exemption for EMD &amp; Security deposit for NSIC registered units are not mentioned in Tender and which has to be mentioned.</li> <li>10. Estimated cost provided in tender site is for less than actual and is inadequate and requirement of specified goods can not be made within the said amount and need to be revised.</li> </ol>	<p><b>EMD exemption is allowed only if the category of tenderer is specifically exempted by the Govt. Under rule 14((1) of Tamilnadu Transparency in Tenders Rules, 2000.</b></p> <p><b>Bid Condition is confirmed for all queries raised.</b></p>
2	<ol style="list-style-type: none"> <li>1. Make it skin friendly coating plastic very cheap but not skin friendly and totally banned in Europe and other countries.</li> <li>2. Fabric specifications is of very high grade hence it will be costly.</li> </ol>	<p><b>Bid Condition is Confirmed.</b></p>

3.	Page No.39, Annexure 1-7 7.2 Material want to water resistant PVC coating.	<b>Bid Condition is Confirmed.</b>	
4.	<u>Tender Document</u> <u>Technical specification Annexure-I</u> <u>C. Material Specifications, S.no.5</u> Resistance to accelerated ageing at 90±2°C for 4 days in an air circulated ageing oven.	There shall be no softening, stiffening, tackiness, brittleness, discolouration or no characteristic odour of decomposition in comparison with the unaged material.	IS7016 (Part-VIII):1975. Instead of IS7016 (Part-III):1975.
